

## Acrylic resin for line marking on sports surfaces

### Description

Formulation containing elastomer binders in an aqueous phase, mineral pigments and micronized silica for line marking

### ● CHARACTERISTICS

- Highly resistant to wear and mechanical stress
- Excellent plasticity
- High UV resistance, non-slip yet non-blocking surface

### ● AREA OF APPLICATION

All sports surfaces except for polyurethane, and natural and synthetic turf. Suitable for indoor and outdoor use.

### ● SURFACES

Surfaces must be clean, dry and DTU 59/3 and 59/1-compliant. On Pro Cup<sup>®</sup> and ISOLATEX<sup>®</sup> applications: apply as soon as the surface is dry enough to walk on.

### ● PREPARATION FOR REPAIR WORK

The surface should be sound and consistent and should have been coated with paint or a vinyl, acrylic or similar synthetic coating.

If necessary, remove any foam from the surface using our THELOCIDE<sup>®</sup> product.

Removal of surface dirt and prep :  
Thoroughly clean, strip and defoam the entire surface.

Crumbling or brittle surfaces :  
Apply one coat of Pro Cup<sup>®</sup> Primer (see this product's data sheet).

## ● APPLICATION CONDITIONS

Conditions : Apply only in temperatures above zero, in well ventilated areas, ensuring that there is no risk of rain or frost until the film dries. Designed for application even in high temperatures.

Tools : Apply a single coat with a short bristle brush or roller.

Dilution : Use either neat or diluted with max. 5% water.

## ● PACKAGING

TENNIS COURT : 5 kg et 20 kg	VOLLEY COURT : 3,5 kg	HANDBALL COURT : 3,5 kg	BASKET-BALL COURT : 3,5 kg	BADMINTON COURT : 3,5 kg
 WHITE (Tennis) 1 x 5 kg / Court	 BLUE (Volley-ball) 2 x 3,5 kg / Court	 YELLOW (Handball) 2 x 3,5 kg / Court	 RED / ORANGE (Basket-ball) 2 x 3,5 kg / Court	 BLACK (Badminton) 1 x 3,5 kg / Court

## écoplas<sup>®</sup> Pro Cup<sup>®</sup> Lines : technical specifications

<b>Colour</b>	Colours from the écoplas <sup>®</sup> Pro Cup <sup>®</sup> colour chart
<b>Composition</b>	Acrylic polymer binder
<b>Density</b>	1,50 +/- 0,05 %
<b>Dry extract</b>	72 %
<b>Clean equipment</b>	With Water
<b>Conservation</b>	Store for 1 year in closed original packaging. Protect from frost
<b>Conditionnement</b>	Plastic buckets, 20 kg net. Large enough to directly add water without the risk of spillage
<b>Transport</b>	Not subject to ADR
<b>Hygiene</b>	Aqueous phase product not subject to labelling
<b>AFNOR</b>	NF T 36-005 Family I - Class 7 b2
<b>Safety Data</b>	See the website : <a href="http://www.ecoplas-pro.com">www.ecoplas-pro.com</a>
