RUBBER AND PLASTIC INDUSTRIES LLC

Certified by

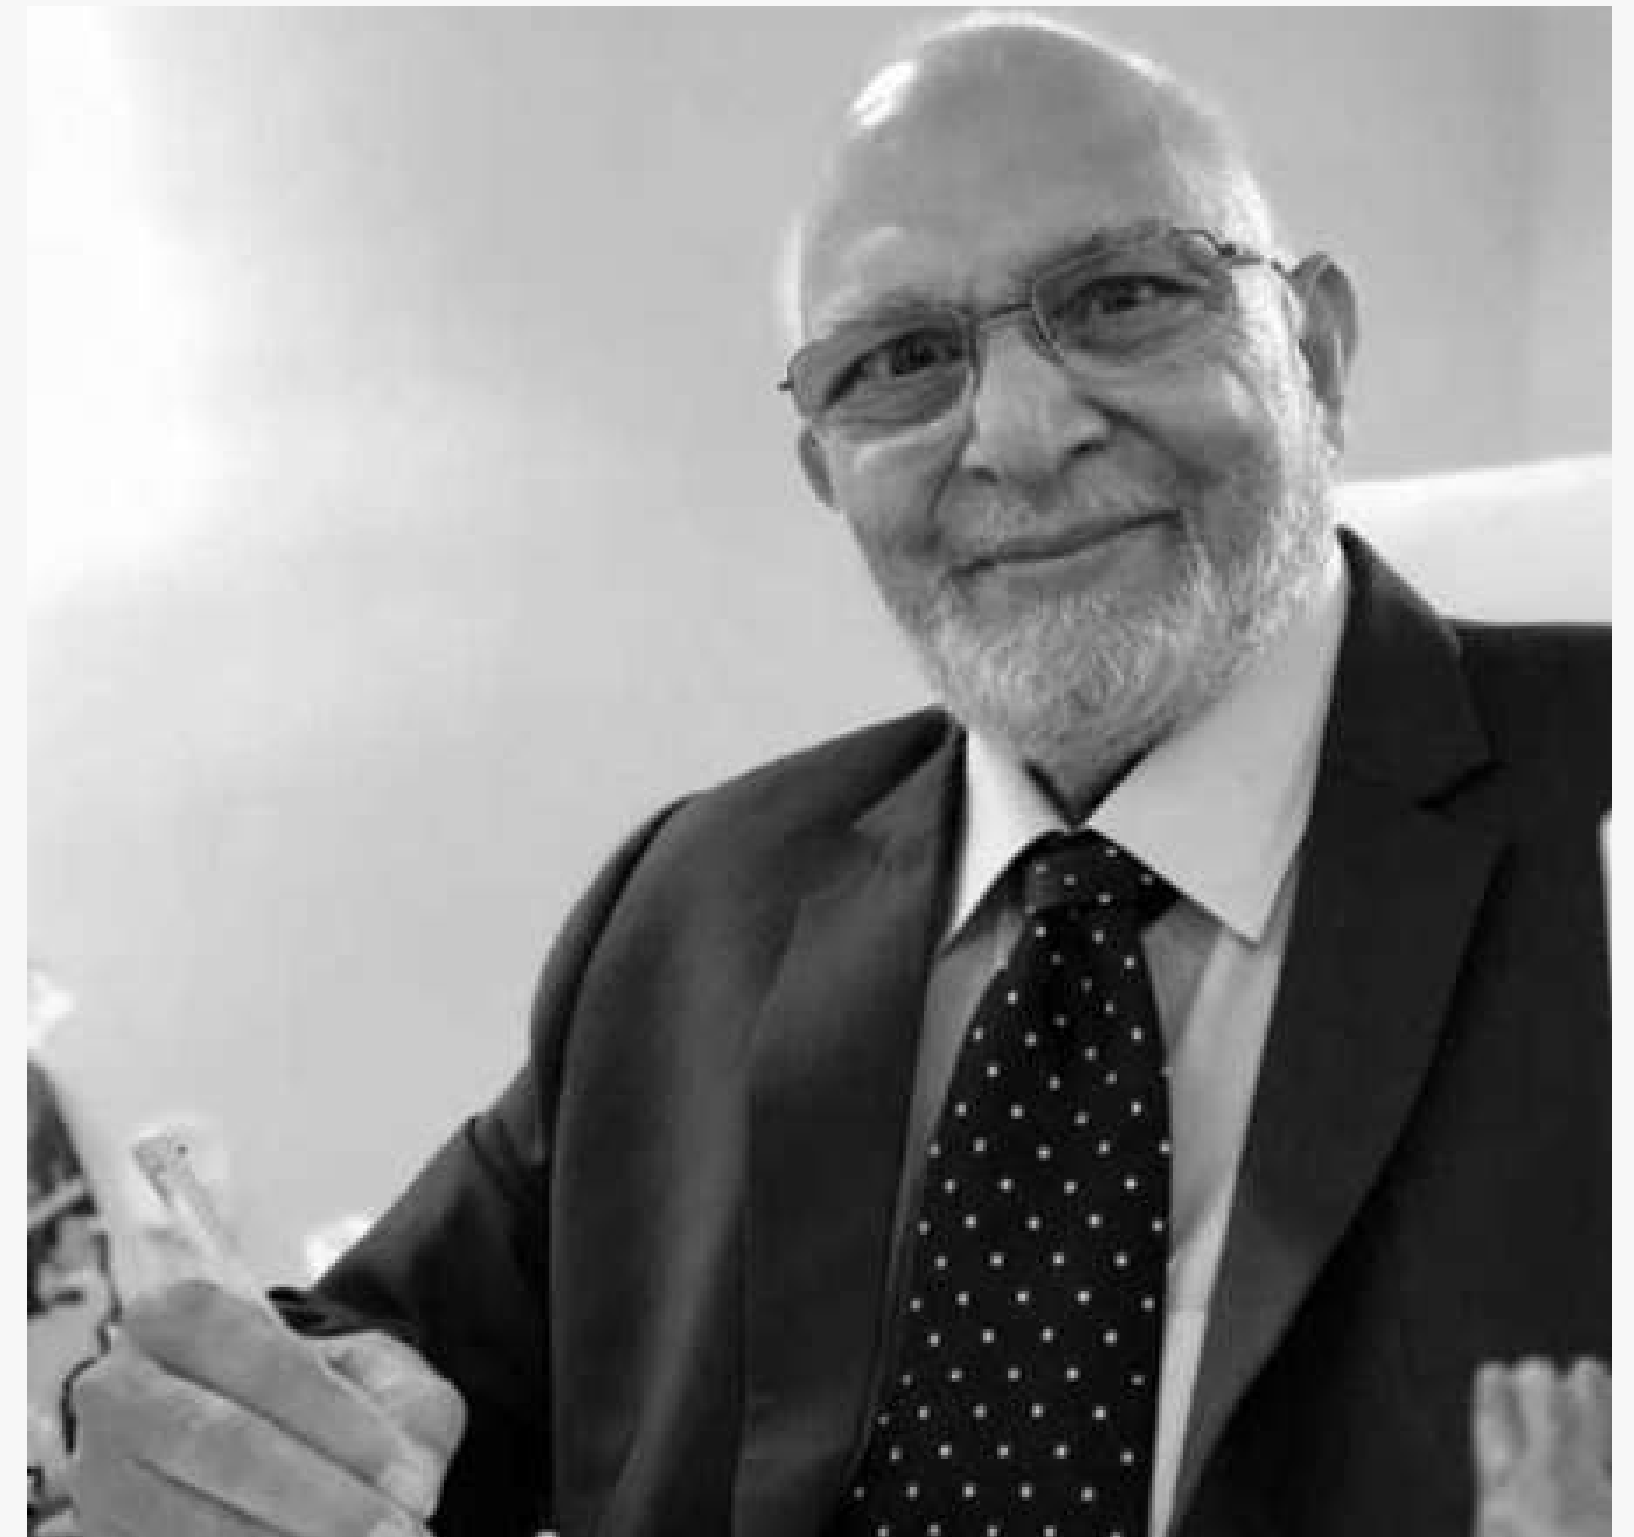

01 | FOUNDER'S MESSAGE

“AT KHALEEJ, WE BELIEVE IN DOING BUSINESS THE HONEST AND ETHICAL WAY.”

Our commitment to excellence starts from the ground up. We secure the highest quality raw materials and ensure state-of-the-art manufacturing practices, to deliver cutting-edge products in a timely manner at the most competitive price.

FOUNDER

ALI HUSSAIN YAKUB

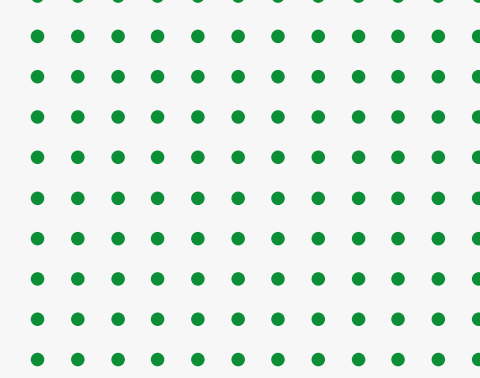

02 | INTRODUCTION

Al Khaleej Polymers Rubber and Plastic Industries is a UAE-based, ISO 9001:2015 certified manufacturer with over 20 years of expertise in **rubber flooring** solutions and **injection moulded plastic products**.

Our rubber division offers durable, eco-friendly flooring for gyms, playgrounds, and sports applications, while our plastics division produces precision-engineered bottles, caps, containers, and custom components.

With a focus on quality, innovation, and sustainability, we deliver reliable solutions that meet international standards and serve diverse industries across the GCC and beyond.

OUR VISION

1. Be one among the top 5 suppliers of manufactured rubber flooring, globally.
2. Be the leading brand specified in the GCC for sports flooring.
3. Be known for innovation, trust, honesty and commitment.

BRAND POSITIONING

Our products are made to international standards with raw materials sourced from reputed European suppliers. Our deliveries are end-to-end, sharp and at a fair price.

MISSION

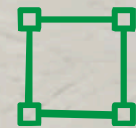

1. Manufacture products that match international standards, offer them at fair price and delight with sharp delivery.
2. Certified in engineering and design of products, processes, and systems.
3. Be known for innovation, trust, honesty and commitment.

CORPORATE SOCIAL RESPONSIBILITY

We have a policy in place, which is inclusive of the following:

- 1.Zero tolerance for corruption.
- 2.Always follow laws & regulations.
- 3.Regularly train employees on safety, including road safety.
- 4.Ensure equal opportunity & respect for all employees.
- 5.Refuse to engage with those who violate human rights.
- 6.No discrimination based on race, gender, religion, or nationality.
- 7.Provide high-quality work & living conditions for staff.
- 8.Adopt sustainable practices to minimize environmental impact.

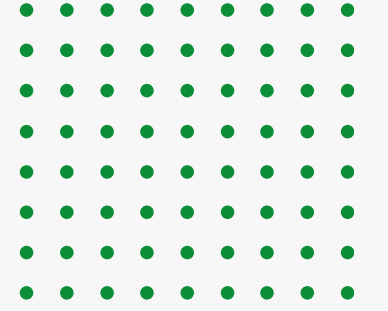

QUALITY ASSURANCE

Al Khaleej Polymers is officially certified with ISO 9001:2015 accreditation.

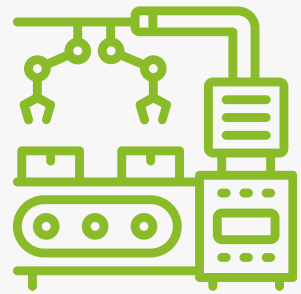

We strive to maintain global standards in our work and products, continuously improving within the organization and with our vendors. All vendors undergo a pre-qualification process to ensure they meet our quality, health, and safety standards.

OUR VALUES/WORK ETHICS

- 1.Trust and personal responsibility in all dealings.
- 2.Work relentlessly towards every client's success.
- 3.Match words with action, always.

ADVANCED MACHINERY & TECHNOLOGY

We use state-of-the-art machinery for rubber and plastic production, including vulcanizing presses for rubber floorings, plastic injection molding machines, and advanced extrusion systems. Use of automated systems to ensure consistency and high-quality production.

RAW MATERIAL SOURCING

We source top-quality raw materials and compounds from reputable European suppliers for both rubber and plastic products, ensuring superior performance.

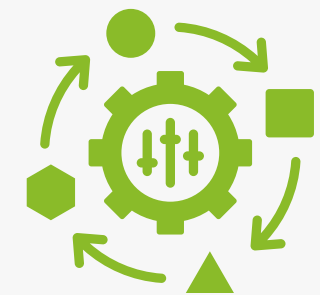

We also incorporate recycled rubber to promote eco-friendly production.

PRODUCTION CAPACITY

We have high-volume production capabilities to handle large-scale orders and tight deadlines, with the flexibility to produce custom sizes and designs tailored to client needs in each division.

CUSTOMISATION & DESIGN FLEXIBILITY

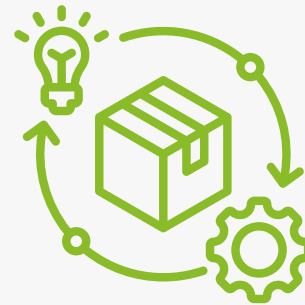

Offering a wide range of customization options in colors, patterns, and finishes for both rubber and plastic products.

Expertise in creating specialized products such as interlocking tiles and complex plastic components.

**HEALTH & SAFETY
STANDARDS**

Adhering to strict health and safety guidelines, producing non-toxic and safe products suitable for environments like schools, playgrounds, and industrial spaces. Anti-slip, noise-reducing, and fire-resistant features available for enhanced safety.

PRODUCT RANGE

Manufacturing a diverse array of rubber tiles for sports, playgrounds, and industrial use, as well as high-performance plastic components for various industries. Expertise in producing durable, long-lasting products that meet client needs.

LOGISTICS & DELIVERY

Efficient supply chain management for timely delivery of products, both locally and internationally. Custom packaging and logistics solutions to meet specific client requirements.

**QUALITY CONTROL &
TESTING**

Rigorous quality checks at every stage of production, ensuring compliance with international safety and performance standards. Testing for durability and consistency in both rubber and plastic products.

COMPRESSION MOULDED RUBBER PRODUCTS

We manufacture high-quality compression moulded rubber products using a process where pre-formed rubber is placed into a heated mold and shaped under pressure to achieve precise curing and durability. This method ensures consistent performance, strength, and resistance to wear, heat, and chemicals, making our products ideal for diverse applications across automotive, industrial, construction, sports, and defense sectors.

PRODUCTS MANUFACTURED

- Stable mats
- Hollow mats
- Link mats
- Edge Mats

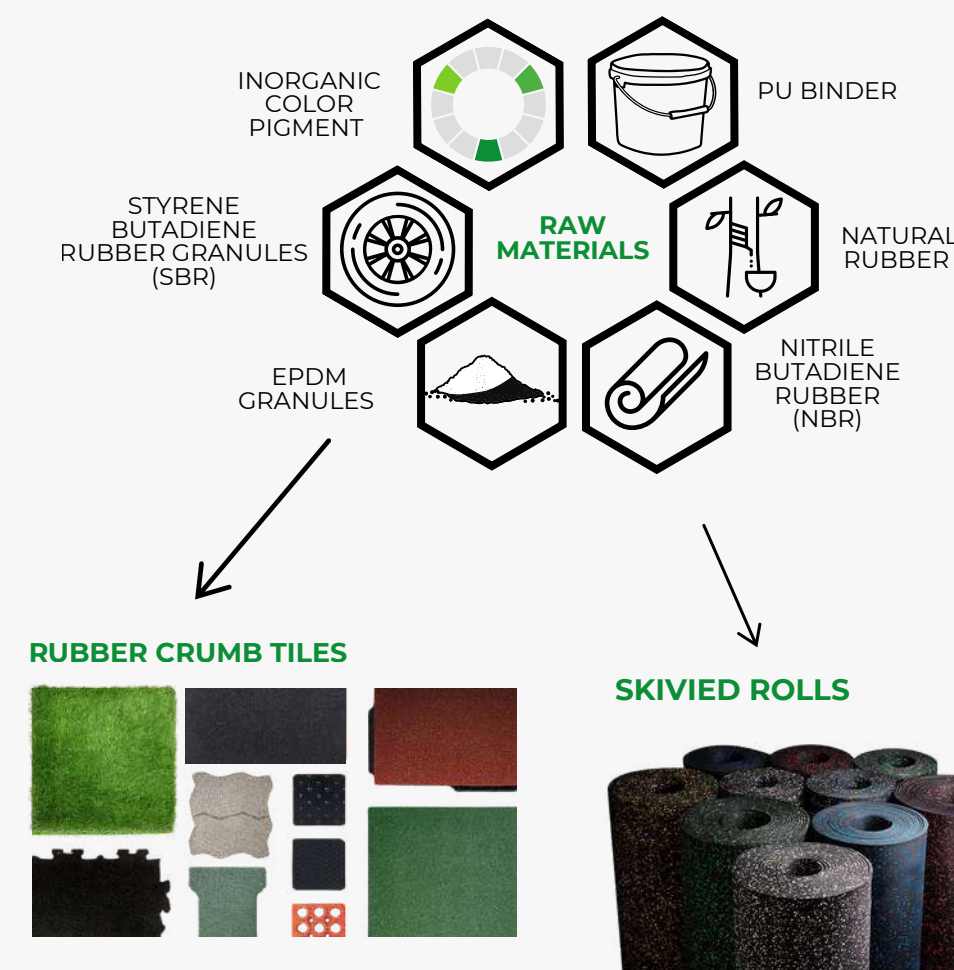

CRUMB RUBBER PRODUCTS

We produce a wide range of crumb rubber products made from recycled rubber granules, offering versatile applications across flooring, landscaping, safety surfacing, equestrian areas, and sports facilities. Known for their durability, shock absorption, and slip resistance, crumb rubber solutions provide long-lasting performance in both indoor and outdoor environments. With customizable options in size, thickness, and design, our products combine safety, comfort, and sustainability—making them a reliable choice for diverse industries.

PRODUCTS MANUFACTURED

- Floorings for gyms
- Fitness centers
- Play areas
- Flooring for equestrian purposes
- Acoustics
- Ballistics

EXTRUDED RUBBER PRODUCTS

Our extruded rubber products are manufactured by forcing raw rubber material through precision dies to create continuous profiles with consistent shapes and dimensions. This process allows us to produce a wide variety of seals, gaskets, hoses, and custom profiles that offer excellent flexibility, durability, and resistance to weather, heat, and chemicals. With the ability to customize shapes, sizes, and compounds, our extruded rubber solutions are widely used across automotive, construction, industrial, and commercial applications, ensuring reliable performance and long service life.

COMMON APPLICATIONS

- CONSTRUCTION
- ELECTRICAL & HVAC SYSTEMS
- DRAINAGE SYSTEMS
- OIL FIELDS
- MARINE APPLICATIONS

BOAT FENDERS

EXTRUDED RUBBER PRODUCT MACHINE

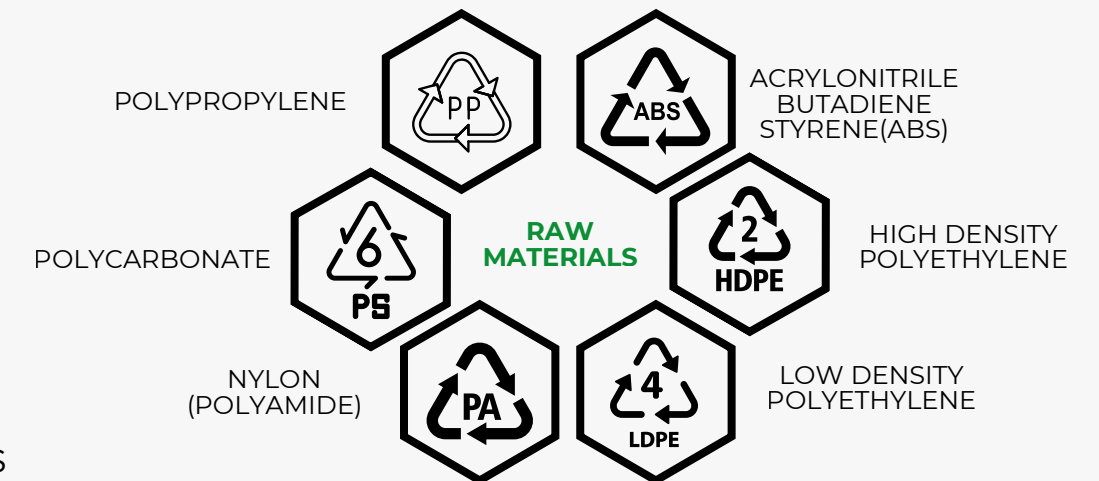

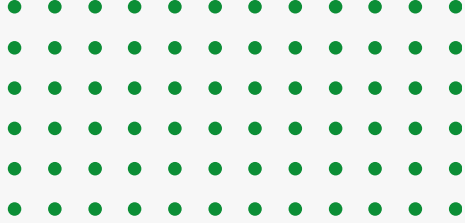

INJECTION MOULDED PLASTIC PRODUCTS

We specialize in manufacturing high-precision injection moulded plastic products by injecting molten plastic into custom-designed moulds to achieve consistent shapes and superior quality. Known for their durability, versatility, and accuracy, these products cater to diverse industries including packaging, consumer goods, automotive, and construction. With a focus on sustainability, we ensure zero waste by recycling excess material back into production, delivering cost-effective and eco-friendly solutions tailored to our customers' specific requirements.

COMMON APPLICATIONS

- PLASTIC WASHERS
- LADDER SHOE
- IMPELIER
- HEX NUTS
- GLASS PACKERS
- SPACERS
- THREAD PROTECTORS
